RE: Garage Door and Garage Door Trim
Color Application Clarification

Please be aware that garage doors and garage door trim must be painted the adjacent foundation color per page 15 of *Designing with Nature*. Garage doors in brick foundations should be dark.

To further clarify, high quality wood garage doors may be stained a dark color. Garage door trim may be the trim color only if the design of the garage doors is fully integrated with the architecture. Sufficiency of integration must be determined at time of elevation review.
